

999! What's Your Emergency?

EYFS – Knowledge Organiser

Police Officers

The police help to keep us safe. They make sure that everyone follows the laws and rules. They might stop a car if the driver is going too fast.

Dial 999 if there is an emergency!

There are lots of people who help us. Some help us in an emergency. Others help us every day. They often wear uniforms or special clothes to do their job.

Fire Fighters

Firefighters put out fires. They use long hoses to spray water on the flames. They work as a team with other firefighters.

Doctors and Nurses

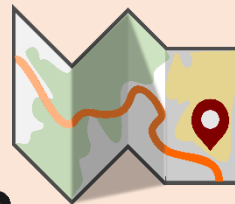

Doctors might use an x-ray machine to take a picture of the bones inside your body. This helps them to fix any broken bones. They might use a stethoscope to listen to your heart or lungs.

Paramedics

A paramedic helps when someone is injured or suddenly gets very ill. They might need to put someone onto a stretcher. Once they have given someone first aid, they often drive them to a hospital in an ambulance.

I am learning to...

Draw information from a simple map.

Be confident to try new activities.

Manage my own basic hygiene and personal needs.
