

# Marvellous Me and Our School

## EYFS – Knowledge Organiser

### My Body

The human body is very special. There are lots of different parts of the body and they all have important jobs to do.

### The Skeleton

The skeleton is made up of lots of bones. The skeleton gives the body its shape and protects the organs that are inside the body.

Our school first began a very long time ago, in 1665, when a man called Anthony Pinchbeck gave money to help start it.

A new building constructed, combining both groups of children in 1973, with 5 classrooms.

There are now 13 classrooms.

Mother Father Brother Sister  
Auntie Uncle Cousin  
Grandmother Grandfather

**I am learning to...**

Work co-operatively and take turns.

Give focussed attention to what the teachers say.

Talk about members of my immediate family.
